ISA District 12 (The Instrumentation Systems and Automation Society) and SUAI (Saint-Petersburg State University of Aerospace Instrumentation) have organized the Forth ISA European students paper competition (ESPC-2008). Papers of professor and the best students were included into this volume of the proceedings of the international forum «Information and communication technologies: problems, perspectives». Papers can be interesting for students, post-graduated students, professors and specialists.

International editor's committee:

Ovodenko Anatoly (Russia) – chairman,
Bobovich Alexander (Russia) – secretary,
Cockrell Gerald (USA),
Mirabella Orazio (Italy),
Khimenko Vitaly (Russia),
Krouk Evgueni (Russia),
Zamarreno Zesus (Spain)

CONTENTS

GREETINGS

Kim Miller Dunn , ISA President.....	3
Gerald W. Cockrell , ISA President – elect Secretary.....	5

PROFESSIONALS SPEAKING

Voloshina N. V. Features of using watermarks protection for the real digital photorealistic images	7
---	---

THE FOURTH ISA EUROPEAN STUDENTS COMPETITION (ESPC-2008) WINNERS

Alvarez D. G., Bregon A. B. Design of a model-based diagnosis system for a three-tank plant using Possible Conflicts.....	12
Bakin E. Duty cycle estimation for radiochannel distributed system of data collection with central control... 17	17
Clendenning R. B. An object-oriented framework for the integration of network configuration operations... 20	20
Giuffrida P. Loki ++: a Petri networks simulator for performance evaluation	25
Gómez E. Dynamic optimization in EcosimPro [®] . Application to parameter estimation and model validation 31	31
Gulyaeva A., Volinkina M. Formation of the prices for oil and the forecast for immediate prospects.....	38
Gurnov K. Modeling system of processing in radars with the synthesized aperture.....	41
Kipyatkova I. An algorithm of generation of alternative phonetic transcriptions for spontaneous Russian speech recognitions.....	45
Kuyumchev G. Designing of analog and digital forming filters	49
Moiseeva Yu. Business activity in the Russian Federation	54
Odundo S. O. Realization of atmospheric free-space optical information channel with uprated noise reduction.....	58
Sabo E. C. Haptics and its implications for technology management	63
Safin D. Retail banking	66
Scellato S. Wireless Network Clustering with Genetic Algorithms	69
Spindzak I. Modeling of a group location object's signal processing channel	74
Tirtichny A. The comparative analysis of characteristics of compensating converters of micromechanical inertial sensors.....	76
Toscano E., Collotta M., Vittorio S. Integrating IEEE 802.15.4 – based sensor networks in industrial process control.....	81
